Notes:

- 1. Most expenditure during the fiscal year 2007-8 has been associated with the on going organisation and archiving of our records. The records extend back over the years since the Campaign's inception in 1997 to the present and form a useful historic record of the Campaign and that chapter in the history of Crystal Palace Park. The records have now been deposited with the London Metropolitan Archives.
- 2. Costs for the website are met privately with small amounts being occasionally met from Campaign funds to update software.
