

Crystal Palace Park Conference 20 May 2011

Paxton Suite, The Lodge, Crystal Palace Park

Notes on the Contents of the Disc

This disc contains most of the information given out at the Conference and includes:

- A summary of the discussions - note this not meant to be a verbatim record, it tries to capture the sense of the conference
- Photographs - almost all taken on the day - a somewhat arbitrary selection of pictures again to capture the mood of the conference and to highlight some of the park features visited during the walking tours; it also contains pictures of the participants... with no annotation
- Although several people have looked at the files, any remaining errors are mine; if there is anything which needs correcting, please let me know
- The Chiswick House and Gardens film, shown at the conference, is copied with the permission of the Chiswick House and Gardens Trust
